

JP International School, Greater Noida
Session 2024-25

Date: 22/01/25

Circular No. JPIS/24/221

Dear Parents,

Namaskar!

We are excited to inform you that the IDA Annual Examination for Grades 1 to 4 students will follow a fun and engaging **activity-based assessment** format this year. This approach is designed to encourage teamwork, hands-on learning, and creative thinking while applying the concepts learned in class.

As part of this assessment, students will be assigned activities in groups of four or Five, where they will **individually prepare** the activity and **collaboratively perform** it with their assigned group. This group activity aims to foster teamwork, critical thinking, and hands-on problem-solving skills.

Key details of the assessment:

- **Group Formation:** Students have been divided into groups of four or five.
- **Activity Assignment:** Each group has been assigned a specific activity to work on.
- **Preparation Phase:** Individual students will be provided with revision notes for their assigned activity, and they will collaborate with their group members to complete the task under the guidance of the STEM mentor.
- **Final Presentation:** During the final exam, each member of the group will be required to present their activity in front of the camera.

Please find the list of students and their group-wise assigned activities via the provided link: [[**ASSIGNED ACTIVITY LIST**](#)].

We believe that this approach will provide students with valuable practical exposure, a deeper understanding of STEM concepts, and improved camera confidence. **Your support in encouraging and motivating the students will be greatly appreciated.**

For any queries or further details, please feel free to contact **Mr. Vishal** or **Mr. Amar**.

Jai Hind

Ms. Ruby
(Principal)
